

## New BTEch UV-5x3 Tri-band HT

This is the new, FCC type-accepted HT from BTEch, original maker of the Baofeng. Spectrum analyzer shows this radio is vastly improved over earlier UV models, and a real bargain for \$64.89. It comes with 2 antennas; VHF/UHF and a 220Mhz. So, if you want to operate all 3 bands without changing antennas, you might consider an aftermarket ant, if you can find a relatively short one... most are pretty long.
