Attachment: W6EK.tq6  
69 KB

IMPORTANT NOTE: This certificate requires TrustedQSL Version 2.0 or later. Attempting to install it using an earlier version of the TrustedQSL software will result in errors. The latest TrustedQSL software can be obtained at:

<https://lotw.arrl.org/lotw-help/certaccept/>

=====

Here is your LoTW certificate for W6EK  
You should be able to install this certificate by double-clicking on the attachment icon. If that isn't possible or doesn't work, save the attached file to disk and then use the TQSL program's "Load Certificate File" menu command to install this certificate into your system.

NOTE: If the attachment failed to arrive with this message, you can just log on to the Web site noted below using the provided username and password and download the certificate file directly.

Records submitted using this certificate can be accessed on the LoTW web site using the credentials:

username: w6ek  
password: 9fa6jv  
by logging in at <<https://lotw.arrl.org/lotwuser/default>>

=====

NOTE! This is NOT the same password the TQSL program may ask for when you're signing a log file!"
