

# Location of Bald Mountain Relay

Not to Scale  
MTR: 5/7/2019

Garmin:  
N 38° 54' 07.2"  
W 126° 41' 53.8"

Intersection is known locally as "Four Corners".

Although it is in the bottom of a saddle whose high points are Bald Mtn. and the hill on 11E23, 5W power and a 8g wave ant. are enough for commo. with all CERA radio locations and Auburn repeater W6EK. 10W and longer ant. on 20-25' mast are better.
