✱ ARRL Restructuring Plan	8, 9

I would like to begin by thanking Steve Faulkner KF6OCE for stepping in at the last minute when our scheduled speaker was unable to attend. Steve gave a very informative talk on the emergency food distribution system that exists in our country. It's nice to know that in the event of a disaster that all the big food companies are willing to set business aside to make sure that food and supplies are available to everyone, even if it means helping out their competition.

Our tentative speaker for August is Brad Wyatt K6WR,

QUAD A's Electronic Sales

Antennas • Towers • Rotors • Cables
Computer • Accessories • Books
Magazines • Power Supplies • Consignment Sales

7360 Auburn Boulevard • 723-7366 or 723-7368

Director of the Pacific Division, ARRL (If for some reason Brad does not make it Jettie Hill, W6RFF, Sacramento Valley Section Manager will stand in for Brad). The hot topic will of course be the proposed changes in the licensing structure, and the reasons why the proposal has been made. So be sure to attend, maybe Brad will give us the answer as to whether or not it's time to throw out our code tapes. Your presence at the meeting will make a difference. Let the ARRL know whether this is the best thing that ever happened, or the worst.

Don't forget our annual picnic Saturday August 29 in Meadow Vista. We will be finalizing our plans for the picnic Friday August 14th at the General Meeting.

73 Gary, KQ6RT

Some Things To Do In August / September

August -

- August 14 is the SFARC General Meeting in Auburn
- August 15 is Family Day, Claveras Big Trees Park, Calaveras
- August 21 - Sept 7 The California State Fair, Cal Expo Sacramento
- August 29 - Meadow Vista Park SFARC Annual Picnic

September -

- Sept. 11 is the SFARC General Meeting in Auburn
- Sept 12 - 13 is the Gold Country Fair, Auburn
- Sept 21 - There is an Eggplant Festival, Loomis (916) 652 7252
- Sept 28 - Oct 4 Gold Panning Championship Coloma (916) 622-6198

General Meeting

July 10, 1998

The meeting was called to order by President Gary Cunningham, KQ6RT at 1940 hrs. Officers present were treasurer Dave Hund, N6SHD. Filling in for secretary Richard Kuepper, WA6RWS was Evan Phillips, WB6EXQ. Vice President Bill Parrish, KM6KV was absent.

Gary announced the July 25th Rabbit Hunt has been canceled and there will be no VE testing in August. *(The announcement came because Bob Metke, W6SUP who organizes the transmitter hunts and VE testing is presently in the hospital.)* The Reno hamswap is August 1st. The Club's White Elephant Sale will take place at the Firehouse located on Sacramento Street in Auburn.

Dave Hund gave the treasurer's report. Present balance is \$815.94.

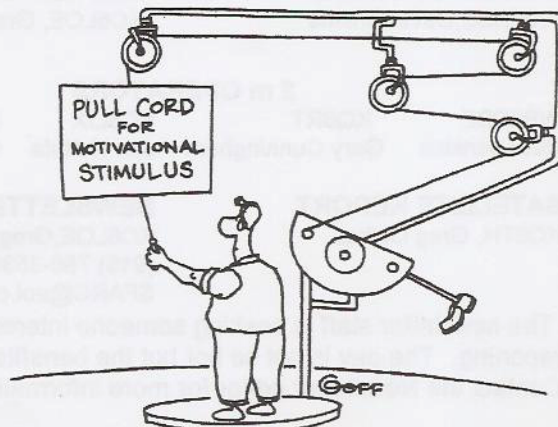

Greg, KO6TH gave the satellite report and says MIR now has a bulletin board. MIR is scheduled to come down sometime next year.

Filling in for our guest speaker was Steve Faulkner, KC6OCE. Steve spoke about the emergency response of food distribution centers. He said that many grocery stores have agreements with each other to supply food during disasters to distribution sites. Multiple food distribution sites will help other distribution sites if they can't keep up with emergency food distribution. Our thanks to Steve for his impromptu presentation.

Meeting adjourned at 2041hrs.

Respectfully submitted by

Evan Phillips, WB6EXQ

Don't Get That Vanity Call Sign Just Yet -

From the August 1998 QST, page 78

Effective September 14, 1998, the vanity call sign application fee will drop to \$13.00 for the ten-year term, payable at the time of application for a new, renewed, or reinstated license. The current vanity call sign application fee is \$50.00. Earlier the year, the FCC had proposed dropping the fee to \$12.90. The actual fee was "rounded up," said Terry Johnson in the FCC's Office of Managing Director.

The FCC says it does not plan to refund the difference between the current fee and the new fee for applicants who submit applications before the new fee schedule goes into effect.

A special thanks to all VE team members for promoting amateur radio through giving their time and talents to the VE program.

August Testing has been Canceled
Testing will Resume in September
The VE team apologizes for the inconvenience

Test Schedule - 7:00 p.m. Wednesday

Sept 2

Pre-Registration is Required Fee is \$6.35

Special test needs are accommodated, e.g. in-home testing, support assistance for specific types of disabilities.

For upgrades, or questions, contact;

SATELLITE REPORT

By KO6TH, Greg Dolkas

Just to be sure none of you think I'm making all of this stuff up, I thought it would be a good idea to share some of my sources with you. There is a wealth of information out there, in various forms, which are accessible to amateur

Amateur - CB - Scanners - Short-wave - Cellular - Commercial
New and Used Equipment for all Ham Radio Needs

THE RADIO PLACE

Sales - Service - Installation

Glenn Still Well, WR6O
5675-A Power Inn Road

(916) 387-0730 fax: (916) 387-0744
Sacramento, CA 95818

and non-amateur alike, regarding satellite communication. For those with a short-wave receiver, a fine summary of recent and upcoming events is the Amsat Net, held Sunday mornings. The net is run on 14.282 mhz usb) by Keith, W5IU, in Ft. Worth Texas. He starts the net informally at 1800Z, with an interactive session of questions and comments, and follows that with a reading of the AMSAT News Bulletins at 1900Z (with his antenna pointed east), and repeated at 1930Z antenna to the west). Those with a General ticket should check in with

Wanted:

Junk radio parts, throw away radio's. Bits and pieces. Anything from the tube era. Also any electronic or radio books or magazines.

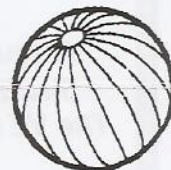

W6JDT, Bill Aston
(916) 652-9038

him, just to say hello. Keith runs his net at the same time year-round, and doesn't follow the traditional daylight savings time shift. He is also experimenting with a 15 meter clone on 21.280, but propagation isn't reliable enough yet for this to be

a regular occurrence. There are also written weekly bulletins, two of which are generally available on both Packet and the Internet. The AMSAT bulletin that Keith reads is available on line at <http://www.amsat.org/amsat/news/ans.html>. The other is Space News, often seen on Packet (I read it on the KE6LW-1 BBS on 144.990), or on the Internet News group rec.radio.amateur.space. Space News is published by John, KD2BD. He has a web site at <http://www.njin.net/~magliaco/>, where he has all sorts of links and articles. The AMSAT web page, <http://www.amsat.org/> is also full of links, including one to the most recent Keps - those indispensable numbers which tell your computer where the satellites are going to be. I've also seen Keps published on packet, so you don't have to have an Internet account to get them. Some of the satellites, or rather their operations teams, have web pages. The recently launched TechSat can be found at

<http://techsat.internet-zahav.net/> for example. Finally, don't discount the value of your local, neighborhood Elmer. Walt, KA6VNU, gave me my first

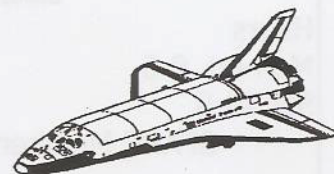

pointers on how to work RS-10 a few years ago, tips I still have not found in any traditional source (but have freely passed on to anyone who asks). A fine place to meet a good Elmer is on the birds themselves!

Get on one of the easier satellites with terrestrial help, and then ask those you meet for problem solving tips or how to get on the more difficult (and typically larger coverage) satellites.

Good luck!

Greg KO6TH

Community Service Communications at the

Rocklin Jubilee '98

June 28, 1998

Kudo's to Matt Diridoni, KC6RUO who facilitated the arrangements and promoted this years Jubilee. Kudo's to Dave Jenkins, WB6RBE. Dave found the many needed Ham Radio Operators to operate during the event. *(Once again the Jubilee was on the same weekend as Field Day so operators were scarce).* Dave was also the Net Control at the Jubilee. Participants reported how smooth the radio operators handled themselves. Everyone missed Michell. Michell has coordinated the Jubilee for many years. All participants received new T-shirts. Although for some reason food was not provided all enjoyed the Jubilee.

Thank You

It's Incredible

What Can Be Found On The Web

From W6YI Report July 15, 1998

Want a Bird's eye view of what your neighborhood looks like from a high-resolution spy satellite? The images are available on the Web by either pointing and clicking on a U.S. map or entering your latitude/longitude coordinates into Microsoft's Terra-Server at:

<<http://terraserer.Microsoft.com>>

It is billed as the world's largest database on the Web. The site contains more than a trillion bytes of compressed satellite Earth photos.....The highly detailed images allow users to zoom in as close as 1.0 meter resolution!

Your coordinates can be found on the Buckmaster Call Sign Look Up Server <http://www.buck.com/cgi-bin/do_hamcall>

At present, only 30% of the United States is available. Pretty D\$@ scary.

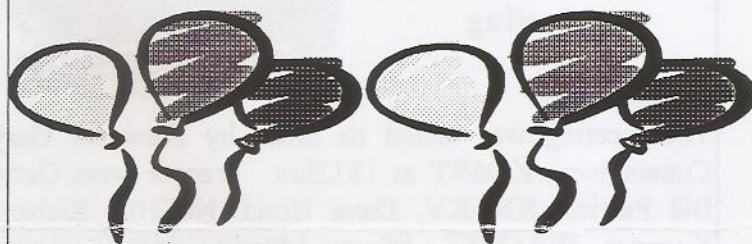

Happy Birthday

SFARC's July 25 Breakfast

At the July 25 Club Breakfast SFARC members and friends enjoyed the food and conversation at Susie's Restaurant.

The food is always good at Susie's. You don't have to be a member to join us for Breakfast. The next Club Breakfast is on Saturday, August 29th. It is recommended you arrive around 7:30 a.m.. Susie's is located off of Cirby in Roseville. Look forward to seeing you there. Remember August 29th, is also the date of the Club Picnic.

Thank You SFARC Members

Thank you for renewing your membership and joining SFARC. Its through your membership and your participation in Club activities that keeps our Club going and growing. Without you there would not be an SFARC.

Thank you from

President	Gary Cunningham, KQ6RT
Vice President	Bill Parrish, KM6KV
Secretary	Richard Kuepper, WA6RWS
Treasurer	Dave Hund, N6SHD
Board of Directors	Wayne Mikel, KE6DJE
	Roger Hedgpeth, N7TK
	Chuck Eder, W6LOE

Board of Directors Meeting

July 24, 1998

The meeting was called to order by President Gary Cunningham, KQ6RT at 1812hrs. Present were Gary, Bill Parrish, KM6KV, Dave Hund, N6SHD, Richard Kuepper, WA6RWS, Wayne Mikel, KE6DJE, Roger Hedgpeth, N7TK and Chuck Eder, W6LOE.

Gary stated the price of printing the newsletter has doubled in cost. The place where the newsletter was being printed tripled their price. The Newsletter Staff was able to find a place that only charges twice what we were paying. Suggestions were made to check out some more places around Roseville.

Gary is working on getting the Firehouse in Old Town Auburn for the White Elephant Sale.

Gary brought the picture album from this year's Field Day event and past it around for everyone to see. The album will be available to everyone at the next general meeting.

Meeting adjourned at 1836hrs.

Richard, WA6RWS secretary.

The Speed of Information Technology

From W5YI Report, July 15, 1998

Think of Internet years in terms of dog years. That is, a ratio of one to seven. As much happens in one year of Internet development as happens in seven years of regular business development.

For Sale

ARRL's Restructuring Plan for Licensing Hams

Posted July 30, 1998

Brad Wyatt, K6WR Pacific Division Manager ARRL

The ARRL released a restructuring plan for licensing of hams in the United States, based upon decisions reached by the ARRL Board of Directors at their meeting between July 16 and July 19. This restructuring plan has been published on the ARRL web site, has been discussed in ARRL Bulletins, and will also be discussed in September QST. It has also been forwarded directly to the FCC in the form of a letter. The proposal, as delivered to the FCC, was approved by the Board of Directors by a vote of 9 to 6 (see Minute 53 of the Board meeting). I was one of the nine who voted for the plan. In my opinion, it was the best plan from a great many plans that were discussed. A majority vote of the Board could not be obtained for any other plan proposed. The proposal has generated a great deal of discussion on the air, on the Internet, and elsewhere. Over 2000 e-mail and regular mail letters have been received by ARRL Directors, many in favor of the proposals, and many opposed. One question that is asked frequently is "why?" Why did the ARRL Board of Directors determine that it was necessary to propose such a plan? The purpose of this Pacific Division Update special edition is to address that specific question, to provide background information and to provide sources of additional information that concerned amateurs may wish to tap. Although the following is public information, it is not widely known or understood, yet it is key to understanding the ARRL Board's action. In a recent amendment to the Communications Act of 1996, Congress required the FCC to perform a Biennial Review of its regulations. This review has been in progress for many months, and a Notice of Proposed Rulemaking (NPRM) for the Amateur Radio Service is expected to be released soon by the FCC. Although the release date for the NPRM has not been announced, those who follow the work of the FCC believe it will possibly be only a few weeks from now. Representatives of the FCC have made it very clear, in both private and public discussions, that the NPRM will propose significant changes in the current licensing structure, including the number of license classes as well as Morse code requirements. It is almost inevitable that changes in the licensing structure would be included in the Biennial Review. The current U. S. Amateur Radio licensing structure is very complex, the most complex in the world. This structure developed over many years as a result of various requests and suggestions by individuals, the ARRL, other organizations and the FCC. However, the new FCC Biennial Review process oral services is supposed to be a "review aimed at simplifying, eliminating or modifying regulations that are overly burdensome or no longer serve the public interest." With an NPRM in the making, the ARRL Board of Directors felt it was appropriate to provide constructive suggestions to the FCC and to start a nation-wide debate on the future of the Amateur licensing structure in the United States. The proposals that were released last week, following the ARRL Board meeting, was the result of that decision. A letter to the FCC, containing the proposals and their rationale, was delivered to the FCC on July 23. Note that the letter delivered to the FCC is NOT a petition or request for rulemaking. By delivering the letter to FCC the ARRL hopes to assist FCC with their Biennial Review. Please understand also that the ARRL Board proposal is not a result of last-minute brainstorming. The Board has been studying license restructuring for over 30 months. This study has made use of the invaluable help of all of you who answered surveys, discussed the issues in mail and on the Internet, and who provided personal comments to me and to my Vice Director (W6CF) at club meetings, conventions, on-the-air, and by telephone. I hope you will all continue to be involved until this matter is finally resolved. One of the objectives of the proposal, that of stirring up a national debate, has been highly successful. As mentioned previously, over 2000 individual written comments, (both by e-mail and regular mail), have been received by Board members thus far, and new messages continue to arrive every day. With the above as background, what do we do now? Now that the ARRL Plan has been delivered to FCC, we must wait for FCC to issue the NPRM which may occur within the next few weeks. While we wait, please prepare by considering what YOU would like to have happen. If you have comments that you believe would help the FCC in their Biennial Review, they may be sent by e-mail to hamcomm@fcc.gov. Your comments should be labeled "Amateur Service Review." Once the NPRM has been released, a time period will be defined during which formal comments to the FCC will be accepted.

Continued on next page

ARRL's Restructuring Plan for Licensing Hams *Continued...*

The length of the time period is not yet known, but based on the comments for Biennial Reviews in other services, the comment period may be as short as 30 days. It is also not known whether or not formal comments will be accepted by e-mail once the NPRM has been released. When the NPRM is released, rest assured that its release will be widely publicized and will also be made widely available, including on the Pacific Division web site, www.pdarrrl.org. For those of you with access to the WWW, the following key documents are now available on the ARRL WWW site:

1. The announcement and outline of the plan itself.
2. Board meeting minutes (see Minute 53 for the details of the motion adopting the plan).
3. ARRL letter of transmittal of the plan to FCC on July 23.
4. Frequently Asked Questions about the plan.

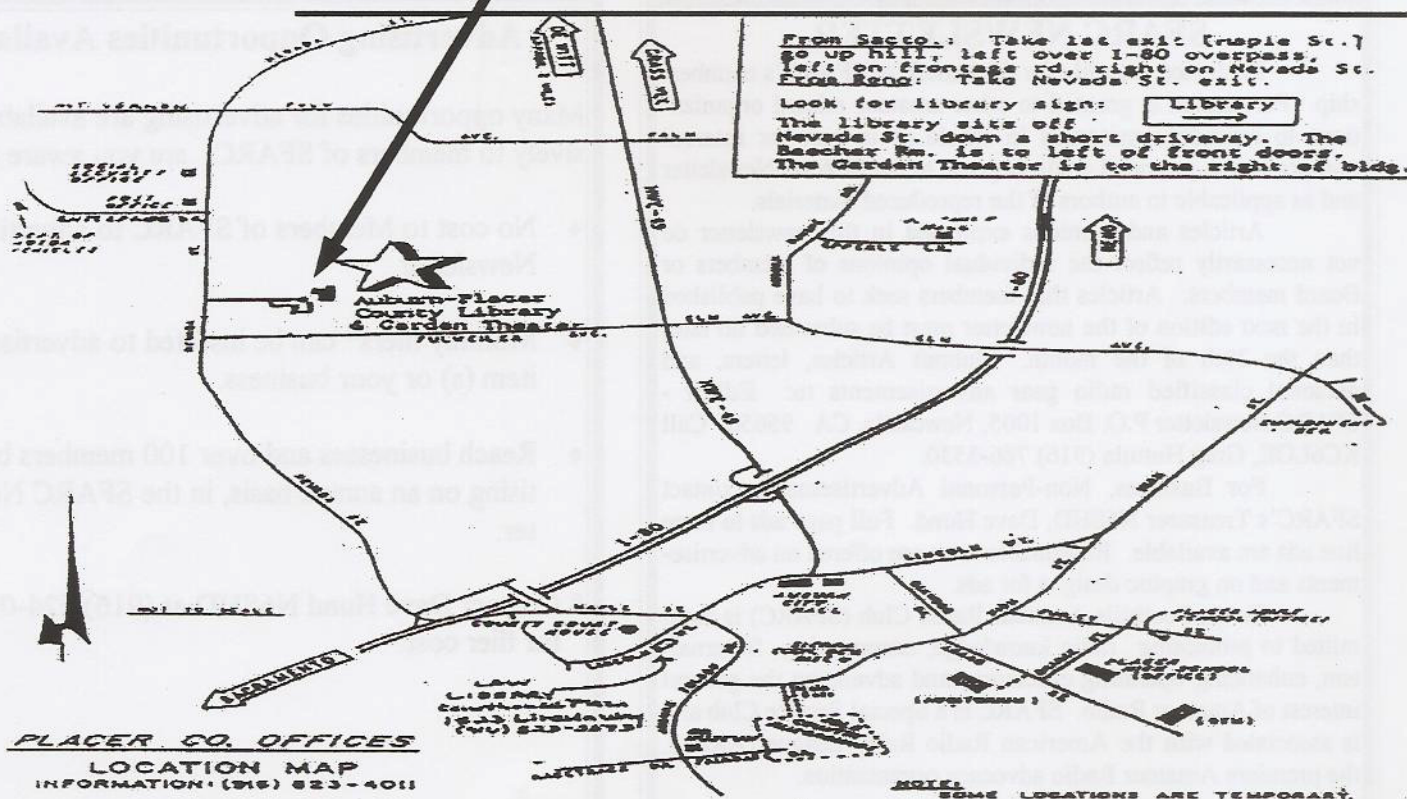

The Rest of the Story

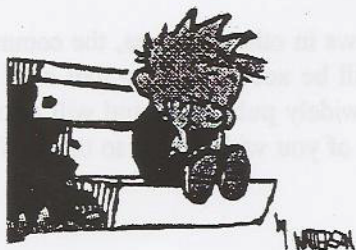

To learn more about ARRL's Plan join SFARC members at the next General meeting Friday August 14 at 7:30 p.m. in the Auburn Library. The Library is located at 350 Nevada Street in Auburn. The program is on ARRL's Plan.

The presenter is **Brad Wyatt**

You don't want to miss this meeting. The meeting place is right here. For a more detailed map see the last page.

...SIGHHHH...

Look'n for some'pun to do Saturday August 29th?

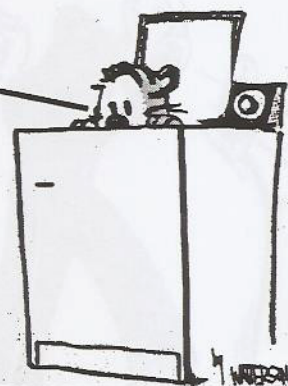

Come join the members of SFARC at the Meadow Vista park in Meadow Vista. The picnic begins when you get there. Generally 10:30 a.m.

There will be some'pun to do for everyone. There will be BBQ'd chicken, hot dogs, hamburgers, sodas and chips. Games of all kinds and great conversation about everything.

I'll see ya there

SFARC NEWSLETTER
